

TRIMIT BUSINESS INTELLIGENCE

Powered by **timeXtender**[®]
Accelerating Business Intelligence

In the post financial crisis world Business Intelligence should be a commodity in all companies. However, this is not always the case – reason? Time and size of the investment! TRIMIT BI is standard and ready to use from day one and at a fraction of what BI normally costs.

The answers to these questions are very essential to most companies, and often play a decisive role in a company's constant strive to become and stay successful now and in the future.

TRIMIT Business Intelligence fulfills the need for information for everybody in the company. No matter what piece of information you get, it always corresponds with the overall picture, as everybody shares the same information across the company's numerous data sources. This, moreover, means that it is now possible to make important tactical and operational decisions based on one truth.

Furthermore, you will be able to build a strong strategy with a valid prognosis based on statistic models.

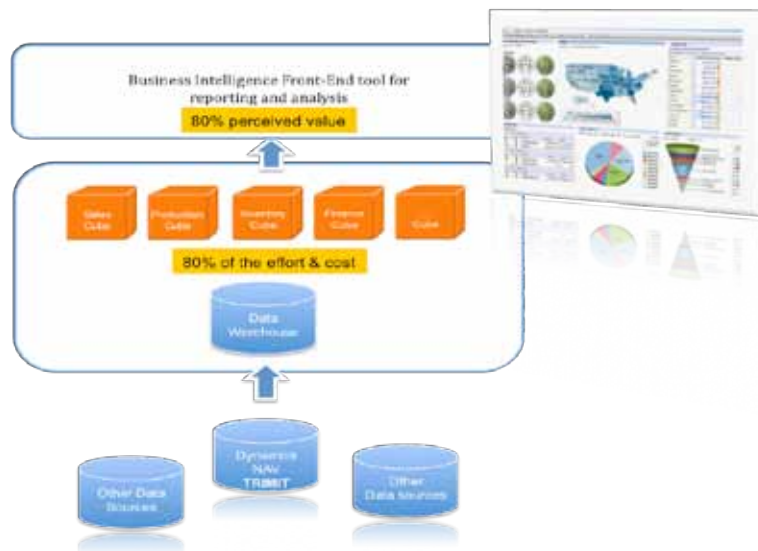

TRIMIT Business Intelligence also makes it simple to convert your numerous data to concrete, useful knowledge.

Unambiguous key figures and intuitive user interfaces gives you complete overview and transparency in your company. Furthermore, TRIMIT Business Intelligence makes it possible for you to analyze and monitor all key figures within e.g. sales and finance.

Altogether TRIMIT Business Intelligence makes it possible for you to find and provide the right information, in the right shape, to the right receiver at the right time.

TRIMIT Business Intelligence always uses latest technology and is based on TRIMIT, TimeXtender, Microsoft SQL Server & Analyzer.

BENEFITS
